

### Group Aim, Content, and Participants

**Write On Handwriting Group Therapy** is appropriate for children in Grades 1 & 2 who want to improve their printing skills. Using elements of the *Handwriting Without Tears* program, children will learn/practice writing using multi-sensory means. In addition to working on letter formation, time will also be spent reviewing the mechanics of writing, including page organization and spacing techniques. Further, fine motor skills will be targeted through crafts and games.

This program will be facilitated by a Registered Occupational Therapist.

A complimentary pre-group screening is offered to determine group appropriateness.
