

### Group Aim, Content, and Participants

**Conversation Club** is aimed at enhancing participants' conversation skills, such as initiating and maintaining conversations, participating in group discussions, and connecting with peers.

These groups are appropriate for adolescents who could benefit from social skills support with their daily interactions. Group programming is based on the well-established *Social Thinking*® curriculum. Sessions will include role-playing, use of videos, and other activities to practice conversational-based social skills. This group is facilitated by a Registered Speech-Language Pathologist and will take place in-person at the clinic.

A complimentary pre-group screening is offered to determine group appropriateness.
