Additional Service Descriptions and Criteria

Physiotherapy Services: Physiotherapy (PT) for children and youth with neuromotor disabilities focuses on developing their gross motor skills to maximize the child's function and participation at home, at school and in the community. The therapist may also assess and prescribe equipment to assist the child or youth to maximize function and/or comfort.

Occupational Therapy Services: Occupational therapy (OT) for children and youth with neuromotor disabilities focuses on developing their motor skills to improve their ability to perform activities associated with their daily life such as self-care, play and community participation. The therapist may also assess and prescribe equipment to assist the child or youth to maximize function and/or comfort.

Speech and Language Services (Simcoe preschool only): Simcoe preschool speech and language services can be considered if a child has difficulty in any of the following areas: play, receptive and expressive language, social skills, speech sound development, feeding.

Service Coordination: Service Planning Coordinators (SPC) support the development of a coordinated and integrated service plan that considers all service needs. SPCs are family centred and support the child, family and team to identify and set meaningful goals.

Service Navigation: Service Navigators discuss a child/youth's needs, work with families to determine the supports a child/youth and family would benefit from, and guide families through the referral process for both CTN services and services delivered through other agencies.
