The 6 F Words For Child Development

Recreation Equipment Edition

Using adapted recreation equipment offers a unique opportunity for children and youth in your FAMILY to have FUN, make FRIENDS, get active outside (FITNESS), develop new skills (FUNCTIONING) and make memories that last a lifetime (FUTURE).

What We Do

CTN supports children, youth and families by focusing on the [F-words for Child Development](#). Every child with varying abilities has the right to have **fun**, enjoy **friends**, **function** as they are, access **fitness**, plan for their **future** and join in **family** activities like biking and hiking.

[The Equipment Loan Program \(ELP\)](#) provides access to specialized recreation, therapy and complex clinical equipment so children and youth with disabilities and developmental needs can participate with their family and friends at home and in the community. If your child is involved with an occupational therapist (OT) or physiotherapist (PT), speak to them first about which equipment would be most appropriate for your child.

CTN and our partners would like to thank the Ontario Trillium Foundation for their generous contribution to make the Equipment Loan Program possible.

Therapy Equipment

Looking for small therapy equipment to support your child's daily living activities? Look no further!

Your child's therapist has access to a large database of loanable therapy equipment such as:

- Adapted bath seats
- Therapy balls for gross motor skills development
- Movin' sit cushions
- Hokki stools
- Other equipment for mobility, positioning and seating

All therapy equipment is stored at CTN sites and can be borrowed for up to 12 weeks. This is a great opportunity to try it with your child before deciding whether you'd like to purchase your own.

Speak to your child's therapist about what equipment might benefit your child and family.

Complex Clinical

If your child has a physical disability, your child's therapist may determine that they would benefit from our complex clinical equipment.

This equipment is primarily stored at our Barrie and Richmond Hill sites and can be borrowed for long periods of time, up to one year.

Complex clinical equipment includes items such as:

- Walkers
- Wheelchairs
- Stenders
- Adapted chairs

Speak to your child's therapist about what equipment might benefit your child and family.

Recreation

Our adapted recreation equipment is a wonderful way for children and youth to join in fun family activities!

Recreation equipment is stored and may be picked up at our Barrie and Richmond Hill sites. If your child is involved with an occupational therapist (OT) or physiotherapist (PT), speak to them first about which equipment would be most appropriate for your child.

Families can borrow equipment for up to two weeks.

If you'd like to learn more about how to borrow recreation equipment or if you have any further questions, please email equipment@ctnsy.ca.

Recreation Equipment

Eligibility and Process

Recreation equipment can be borrowed by all families living in Simcoe County or York Region, who have children and/or youth with disabilities or developmental needs.

Steps for borrowing recreation equipment:

1. A parent or therapist sends an email to equipment@ctnsy.ca.
2. Once the request has been received, CTN will notify the family or therapist regarding availability via email. If equipment is not available at this time, it may be reserved for a future date.
3. Completion and acknowledgement of liability form is completed.
4. CTN will arrange a no contact pick-up and drop-off time outside a site.

Other information:

- CTN will follow equipment cleaning procedures prior to pick up and drop off.
- If physical adaptations are required for equipment, please speak to someone on your child's team.
- Families must be able to load and transport the equipment independently.
- Equipment may be borrowed for two weeks.

Biking

	Try this if user:	Other important details:	
Freedom Concept DCP 12	<ul style="list-style-type: none"> • Had an OT or PT recommend • Would benefit from a supportive seating system • Is between 4-8 years old • Weighs less than 125 lbs. 	<ul style="list-style-type: none"> • Bike height 41" (without seat) • Bike length 43" • Bike weight 45 lbs. 	
Freedom Concept DCP 16	<ul style="list-style-type: none"> • Had an OT or PT recommend • Would benefit from a supportive seating system • Is between 7 years old – early teens • Weighs less than 150 lbs. 	<ul style="list-style-type: none"> • Bike height 42.5" (without seat) • Bike length 47" • Bike weight 50 lbs. 	
Freedom Concept ASR 2011 (Odyssey)	<ul style="list-style-type: none"> • Weighs less than 225 lbs. • Has inseam from 19" to 34" • Would benefit from semi-recumbent chair with up to 10' tilt 	<ul style="list-style-type: none"> • Bike height 37.5" • Bike length 77" • Bike weight 86 lbs. • Optional rear steering 	

Biking Continued

	Try this if user:	Other important details:	
Worksman Port-O-Trike	<ul style="list-style-type: none">• Does not need seating supports• Is adult-sized• Weighs less than 210 lbs.	<ul style="list-style-type: none">• 3 speeds• Folds to 32" x 30" x 29.5"	
Stab Fixe Stabilizing Wheels	<ul style="list-style-type: none">• Would benefit from stabilizing wheels on a regular adult bike• Does not need seating supports	<ul style="list-style-type: none">• Fits bikes with 20" wheels or larger• Requires an adjustable wrench	

Biking for Preschoolers
