

Virtual Conversation Club: Social Pragmatic Group

Group Aim, Content, and Participants

Conversation Club is aimed at enhancing participants' conversation skills, such as initiating and maintaining conversations, participating in group discussions, and connecting with peers.

These groups are appropriate for children and adolescents who could benefit from social skills support with their daily interactions. Group programming is based on the well-established *Social Thinking*[®] curriculum. Sessions will include role-playing, use of videos, and other activities to practice conversational-based social skills. This group is facilitated by a Registered Speech-Language Pathologist and will take place over Zoom.

A complimentary pre-group screening is offered to determine group appropriateness.

Group Information

Duration

60 minutes
