

## THERAPEUTIC RECREATION

# YOUTH CONNECTIONS GROUP

Youth ages 8+ are invited to join us weekly for a fully inclusive evening of bouncing, group activities, social skill development, and of course, fun! We know that many youth with disabilities face barriers when it comes to building relationships with their peers. This group aims to support the development of communication, cooperative skills, emotional intelligence, and independence. Come join us on Monday evenings to develop new skills, build confidence and connect with peers!
